DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

Reports, Forms and Record Keeping Requirements

Agency Information Collection Activity Under OMB Review

AGENCY: National Highway Traffic Safety Administration, DOT

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.), this notice announces that the Information Collection Request (ICR) abstracted below has been forwarded to the Office of Management and Budget (OMB) for review and comment. The ICR describes the nature of the information collections and their expected burden. The Federal Register Notice with a 60-day comment period was published on September 16, 2013 [Volume 78, No. 179, Page 57000].

DATES: Comments must be submitted on or before (insert 30 days from date of publication).

FOR FURTHER INFORMATION CONTACT: Gary R. Toth, Office of Data Acquisitions (NVS-410), Room W53-505, 1200 New Jersey Avenue, S.E., Washington, D.C. 20590. The telephone number for Mr. Toth is (202) 366-5378.

SUPPLEMENTARY INFORMATION:

National Highway Traffic Safety Administration

Title: National Automotive Sampling System (NASS)

OMB Number: 2127-0021

Type of Request: Continuation.

Abstract: The collection of crash data that support the establishment and enforcement of motor vehicle regulations that reduce the severity of injury and property damage caused by motor vehicle crashes is authorized under the National Traffic and Motor Vehicle Safety Act of 1966 (Public Law 89-563, Title 1, Sec. 106, 108, and 112). The National Automotive Sampling System (NASS) Crashworthiness Data System (CDS) of the National Highway Traffic Safety Administration investigates high severity crashes. Once a crash has been selected for investigation, researchers locate, visit, measure, and photograph the crash scene; locate, inspect, and photograph vehicles; conduct a telephone or personal interview with the involved individuals or surrogate; and obtain and record injury information received from various medical data sources. NASS CDS data are used to describe and analyze circumstances, mechanisms, and consequences of high severity motor vehicle crashes in the United States. The collection of interview data aids in this effort.

Affected Public: Passenger Motor Vehicle Operators

Estimated Total Annual Burden: 5,605 hours

Number of respondents: 9,450

ADDRESS: Send comments, within 30 days, to the Office of Information and Regulatory Affairs, Office of Management and Budget, 725-17th Street, NW, Washington, DC 20503, Attention NHTSA Desk Officer.

Comments are invited on: Whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Departments estimate of the burden of the proposed information collection; ways to enhance the quality, utility and clarity of the information to be

collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

A comment to OMB is most effective if OMB receives it within 30 days of publication.

Issued in Washington, DC, on November 22, 2013

Terry T. Shelton
Associate Administrator for National Center for Statistics and Analysis
